Split- Rok Construction Company
P.O. Box 1333
Point Pleasant, NJ 08742
Attn: Mr. Ted Mechnick

Dear Ted:

We would like to take this opportunity to thank you and your Company for the outstanding effort you personally provided during the planning and construction of the stamped concrete driveway and sidewalks at our home in South Brunswick.

Over the years, in our personal and professional lives, we have had the opportunity to know and work with numerous stamped concrete contractors. Split- Rok Construction stands out in our minds as a leader in this field. From the inception of the project, you personally handled all aspects of the design, coloring and pattern of the project. Your personal touch and product knowledge was most impressive and gave us a great comfort level that the project would be performed properly. In addition, your field crew was well-trained, highly professional, diligent and most cooperative.

Finally, your adherence to ACI preparation, placement and curing procedures and insistence on only using good quality materials assured us that this project will be durable and beautiful for years to come.

Even after the project was completed, every time we asked a question or needed some follow up maintenance, your company was right there.

Accordingly, we would like to take this opportunity to say "**Thank-You**" for a job well done! The driveway and sidewalks came out beautiful and we have received numerous compliments from well respected people involved in the concrete industry.

Sincerely,

Dianne & Jim Johnston
